

14-15 February

PERIO PRAGUE 2025

PERIODONTAL COURSE FOR DENTISTS
AND DENTAL HYGIENISTS

*i*Perio 
EDUCATION

Local Organizer DIS. SANDRA SMĚLÁ

PROF GIULIO RASPERINI

UNDERSTANDING THE DISEASE IS A KEY OF SUCCESS IN ITS TREATMENT

How to **eliminate periodontal pockets without recessions**

How to achieve a **tooth stability**

What do we need to know about **occlusal factors** in periodontology

Do we really need to think about the bone around teeth

What do we know about **interdental attachment**

How to work with the **new classification** of periodontal disease

When should we use **antibiotics**

Minimally invasive **instruments and approaches**, why do we need them

When is the right time and need for surgery

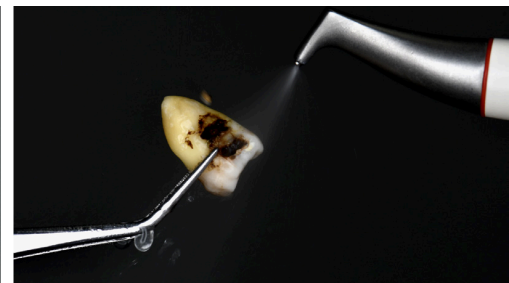

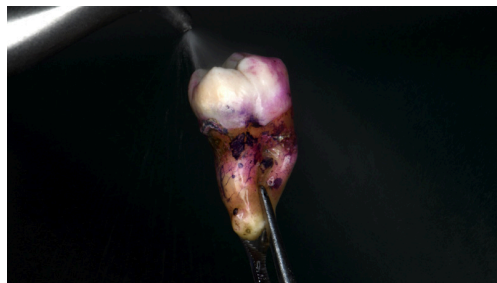

Why understanding the **phenotype** is the key for **minimally invasive treatment**

Motivation, supportive therapy

How to achieve **long-term results**

How to treat periodontal disease **without relapse**

Non - surgical periodontal treatment is much more complicated than just Scaling and Root Planning

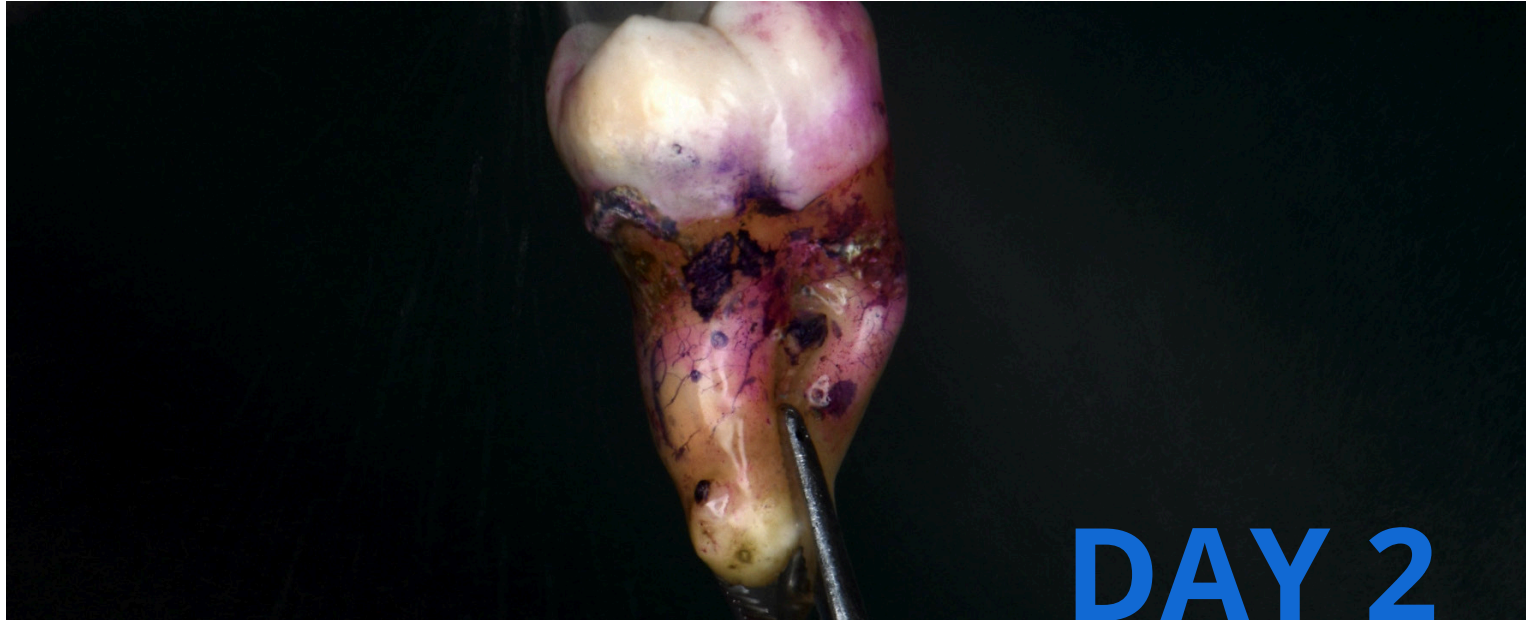

PERIO FOUNDATION

- 09.00-11.00** Klasifikace parodontálních onemocnění - Diagnostická data - Parodontální záznamy - RTG vyšetření / Classification of Periodontal Disease - Diagnostic Data - Perio-charting - Radiologic Examination
- 11.00-11.30** Coffee Break
- 11.30-13.00** Personalizovaná medicína: Koncept 5P - Fenotyp jako hlavní faktor při plánování léčby
Personalized Medicine: The 5P Concept - Phenotype as a Main Factor in Treatment Planning
- 13.00-14.00** Oběd
- 14.00-15.30** Nechirurgická parodontální terapie: Jak připravit pacienta na chirurgickou fázi - Načasování a údržba / Non-Surgical Periodontal Therapy: How to Prepare a Patient for the Surgical Phase - Timing and Maintenance
- 15.30-16.00** Coffee Break
- 16.00 - 17.30** Cvičení na novou klasifikaci parodontálních onemocnění
Exercises on the New Classification of Periodontal Disease

ADVANCED SURGICAL PROCEDURE

- 09.00 - 11.00** Řízení měkkých tkání: Fenotyp a rozhodovací proces v mukogingivální chirurgii/ Soft Tissue Management: Phenotype and Decision-Making in Mucogingival Surgery
- 11:00-11:30** Coffee Break
- 11:30-13:30** Chirurgické techniky / Surgical Techniques: CAF (Coronally Advanced Flap) for Single and Multiple Recession - Tunneling - TCAF (Tunneled Coronally Advanced Flap), A New Surgical Approach
- 13:30-15:00** Oběd
- 16:00-18:00** Vývoj regeneračních chirurgických technik / The Evolution of Regenerative Surgical Techniques: Papilla Preservation Flap - Modified Papilla Preservation Flap (MPPF) - Simplified Papilla Preservation Flap (SPPF)
Chirurgické techniky pro EMD / Surgical Techniques for EMD: Single Flap Approach (SFA) - Entire Papilla Preservation Technique - Soft Tissue Wall Technique

REGISTRATION

1 DAY € 450,00 - 11400 CZK

2 DAYS € 800,00 - 20300 CZK
